### SUMMARY

Detail-oriented Data Analyst with hands-on experience in SQL, Power BI, and data visualization, developed through a Power BI internship with Microsoft Elevate (AICTE) and multiple data analytics job simulations with global firms. Skilled in structuring data, building interactive dashboards, and translating findings into clear, actionable business insights, with additional experience in web development and cross-functional project delivery.

### SKILLS

**Data & Analytics:** Power BI, SQL, Data Visualization, Data Labeling, Dashboard Design, Exploratory Data Analysis

**Web Development:** HTML, CSS, JavaScript, React, Java, Python, Data Structures & Algorithms

**Cloud & AI Tools:** Microsoft Azure Fundamentals, Cloud Administration & Engineering, Microsoft Copilot, AI & Machine Learning

**Domain Knowledge:** ESG Reporting, Sustainability Frameworks, Lifecycle Management, Project Planning, Stakeholder Management

### EXPERIENCE

**Web Developer Intern** | *Zidio Development* 07/2026 – 10/2026

- Assist in designing, developing, and deploying responsive web applications using modern front-end and back-end technologies.
- Collaborate with UI/UX teams to implement user interfaces and integrate third-party APIs, improving application interactivity and functionality.

**Power BI Intern** | *Microsoft Elevate (AICTE Internship Program)* 02/2026 – 03/2026

- Completed a 4-week internship on Emerging Technologies focused on Power BI for Business Applications, delivered in collaboration with AICTE.
- Built dashboarding and data visualization skills for business applications through mentor-led sessions, culminating in a final project submission.

**Job Simulation Participant** | *Forage (Virtual)* 07/2025 – Present

- Completed 8 virtual job simulations with JPMorgan, Tata Consultancy Services, Deloitte, Siemens, KPMG, and Commonwealth Bank, covering business analysis, project management, and data analytics.
- Built KPI-tracking dashboards, conducted exploratory data analysis using generative AI tools, and produced data visualizations for simulated client engagements.

### PROJECTS

**Data-Driven Decision Dashboard** | *Power BI* 2025 – 2026

- Built an interactive Power BI dashboard to analyze business data and support data-driven decision-making.

### EDUCATION

**Bachelor of Science (Electronics and Communication Engineering)** 07/2026 – Present

*IIT Madras, Chennai*

### CERTIFICATIONS

Power BI for Business Applications (Microsoft Elevate, AICTE) • Microsoft Azure Fundamentals • AI & Machine Learning • Full Stack Development • Generative AI • Cloud Administration & Engineering

### KEY ACHIEVEMENTS

- Improved application performance by 30% through optimized MySQL queries.
- Presented data-driven strategies and project roadmaps in a simulated client leadership meeting, receiving positive feedback on clarity and strategic thinking.

### STRENGTHS

- Data-Driven Problem Solving** – Translating complex data sets into actionable business strategies.
- Cross-Functional Leadership** – Bridging technical development teams and business stakeholders.
- Teamwork & Adaptability** – Effective collaboration and integration of AI tools into workflows.
